Round Cat Scratchers

2 cat scratchers = 1 hour

Materials

- Corrugated cardboard
- Ruler
- Box cutters
- Duct tape or hot glue

Instructions

1. Cut cardboard into two inch strips.
2. Choose one long strip, and begin to roll it up as tightly as you can. Roll evenly, so that the roll stays.
3. When you reach the end of a strip, use hot glue or tape to attach a new strip, then continue rolling.
4. When the round cat scratcher is as wide as you want, use the hot glue or tape to attach the final strip securely to the base. Make this VERY secure, because if it comes loose, then so does the entire cat scratcher!

Box Cat Scratchers

1 cat scratcher = 1 hour

Materials

- Corrugated cardboard
- Ruler
- Box cutters
- Hot glue

Instructions

1. Cut the bottom off of a corrugated cardboard box. Make the cuts 2" from the bottom of the box, measured from the inside, so that what you're left with consists of the box's bottom with 2" sides all around.
2. Measure the 2" cardboard strips so that they exactly match the inside length of the cardboard box, then cut the strips to size.
3. Stack the cardboard strips in the box, cut the sides up, securing with glue. Continue until you've filled the entire box bottom with these cardboard strips, placed tightly until there's no room for another strip.
